Course Details

a) Introduction

Dangerous Goods are articles or substances that are capable of posing a risk to health, safety, property or the environment. Dangerous goods are very unlikely to cause a problem when they are prepared, handled and transported in accordance with these Regulations. The successful application of the provisions pertaining to safe transport of dangerous goods by sea are greatly dependent on the appreciation by all individuals concerned of the risks involved and on a detailed understanding of these provisions. This can only be achieved by properly planned and maintained initial and recurrent training programmes for all persons concerned in the transport of dangerous goods. Accordingly as per IMDG Code chapter 1.3, training is now made mandatory for all shore-based personnel engaged in the transport of dangerous goods intended to be transported by sea.

DGM India Academy of Logistics, a foremost training academy in Regulation of Dangerous Goods Transportation, brings to interested stakeholders, its second public programme on **“Regulation for Shipping Dangerous Goods by Sea- IMDG Code”**. The Training requirements specific to security of dangerous goods in chapter 1.4 shall also be addressed.

b) Course Objective:

To meet the training requirement as specified in IMDG Code chapter 1.3.1.1 for shore based personnel of logistics companies and shippers/manufacturers/exporters shipping dangerous goods.

More specifically, the course objective is to enable the participants to:-

- a) Apply the IMDG Code correctly in shipping dangerous goods
- b) Understand the background to IMDG Code and legal aspects involved
- c) Understand the meaning of Dangerous Goods from perspective of the Regulation and differentiate it from hazardous material
- d) Identify and differentiate the nine classes of dangerous goods by their principle criteria
- e) Identify the dangerous goods from their UN number and Proper shipping name
- f) Understand and study the significance of Packaging to minimize and eliminate the risk in shipping dangerous goods, package specification and testing and packing instructions
- g) Properly mark and label a dangerous goods package and verify that the marking and labelling requirement have been correctly met
- h) Understand Stowage and Segregation requirements for incompatible dangerous goods in respect of packing in one outer package, storage in warehouse, loading them in containers and stacking of containers on board the ships.

- i) Complete a dangerous goods transport document and verify that the information provided thereon complies with the IMDG Code

c) Methodology

The course will consist of mixtures of lectures, exercises, readings of specific paragraph from the IMDG Code volumes 1 & 2, participants discussion and practical demonstrations whenever possible.

Student hand-out material will be given to each participant. The Reference book will be the IMDG Code in two volumes, which will be shared between two participants for the duration of the course.

d) Target audience for this Training Course:

- Shippers or Exporters shipping dangerous goods other than radioactive material
- Logistics company personnel involved in transport of dangerous goods by sea, container loading/unloading of such material
